

### What we do may look like magic, but it's down to the range of techniques and products described in our Disciplines.

The Process Disciplines describe the 'how' of what we do and cover many of the pre-treatment and preparatory techniques which NeroQom® has available.

#### #010 NeroQom® Blast

In some cases, you need a more intensive solution to remove contamination or prepare for future treatments. When you do, blasting with a range of different compounds will give you the best results.

#### #010-1 NeroQom® Dry Ice Blast

Dry ice enables the Squad to clean without water and without leaving residue, the same great results without the mess.

#### #010-2 NeroQom® Precision Blast

The Squad has a range of different compounds to blast with which can be used on various types of surface to deliver the results you need.

#### #010-3 NeroQom® Sand Blast

When you need great results without all the liquid, we have the blasting solution to get the job done.

#### #020 NeroQom® Coating Application

Protect, restore and restyle your surfaces with a new coating application.

#### #020-1 NeroQom® Coating Protect

Extend the life of your surfaces by applying a new, upgrade layer of protection.

#### #020-2 NeroQom® Coating Restore

The finish and colour of coated surfaces degrades or can be damaged. We will apply a new coating to restore the colour, gloss-rate, hardness and lacquer thickness.

#### #020-3 NeroQom® Coating Restyle

When it's time for a change, our coating restyle will change the colour or finish of your surface.

#### #030 NeroQom® Graffiti

Remove and minimise the impact of graffiti where ever it occurs with our comprehensive range of Disciplines.

#### #030-1 NeroQom® Graffiti Care Clean

Remove difficult graffiti from more sensitive surfaces. One of our most powerful products, it always gives great results.

#### #030-2 NeroQom® Graffiti Clean

Effectively and efficiently remove graffiti from a range of surfaces with our market leading techniques.

#### #030-3 NeroQom® Graffiti Clean Pro

For only the most stubborn or deep graffiti, Clean Pro handles the toughest challenges to give you the best results.

#### #030-4 NeroQom® Graffiti Shadow Remover

If cleaning graffiti leaves a shadow behind, our active products will remove these and leave your surface flawless.

#### #030-5 NeroQom® Graffiti Wipes

Perfect for small areas or quick cleans, our graffiti wipes are as effective as they are convenient to use.

#### #031-1 NeroQom® Graffiti Permanent Protect

The perfect solution for areas prone to vandalism. Once applied, this hard-wearing layer will protect your surfaces and make removing graffiti quick & easy.

#### #031-2 NeroQom® Graffiti Semi-permanent Protect

For delicate surfaces, this layer will protect your surface from spray paint and come off with the graffiti.

#### #040 NeroQom® Preparation

You know what they say, failing to prepare is preparing to fail! That's not a mistake we'll make.

#### #040-1 NeroQom® Core Prep

We start off in the right way by completing a thorough, deep clean of your surface to remove contamination.

#### #040-2 NeroQom® Renovate Prep

When the surface has been compromised by scratches, chips or dents, this will restore structure and condition before we start work.

#### #040-3 NeroQom® Restore Prep

If your surface has been damaged with poor or incorrect products, such as wax or coatings, the Squad will remove it before we apply the right solution.

#### #040-4 NeroQom® Surface Prep

When you need a new paint or coating, we will prepare your surface to ensure the best finish.

#### #050 NeroQom® Site Services

Flexibility is key with our site services. These will be used when you need our Squad to complete a range of Disciplines or when you need to see how we work.

#### #050-1 NeroQom® Day Rate Projects

When you need flexibility our day rate will give you access to the Squad when and how you need it.

#### #050-2 NeroQom® Test Day Performance

For more unique and unusual projects, it may be necessary for the Squad to show you what we can do and give you some options of result. We call these visits our Test Days.

#### #060 NeroQom® Temporary Protect

No matter the surface, no matter the situation, we have a range of protection options to take care of it.

#### #060-1 NeroQom® Temporary Protect

Flexibly applied liquid temporary protection which will dry to provide a layer of protection. This layer will be applied to the thickness and strength you need.

#### #060-2 NeroQom® Temporary Protect Pro

Liquid temporary protection which we can adjust the character of to match your needs, including different colours, hardness, fire-resistance, anti-corrosion and much more.

#### #060-3 NeroQom® Temporary Protect Site

Using a range of specialist methods, we will isolate our work area to prevent damage or contamination.

#### #060-4 NeroQom® Temporary Protect Solid

Available with a variety of characteristics including colours, different levels of transparency and thickness. From boards to carpets to films, these are flexible and hard-wearing temporary protection solutions.

### **#070 NeroQom® Vinyl Film Application**

Change the look and finish of a surface easily by applying a vinyl film wrap.

### **#070-1 NeroQom® Vinyl Wrapping**

Wrap your surface to change the look, renovate or protect it with versatile, long-lasting vinyl film wraps.

### **#080 NeroQom® Wash**

The cornerstone of maintenance and starting a project, giving your building or superyacht a good wash can be the first step to you experiencing new again.

### **#080-1 NeroQom® Advanced Wash**

A wash with something extra. We'll change the character of water to give you a unique result; a deeper clean, ongoing protection or whatever you need.

### **#080-2 NeroQom® Basic Wash**

A wash, making it wet and dry. The Goal? Just a clean. Cheap and effective.

### **#080-3 NeroQom® Core Wash**

A wash and a check-up. We'll give everything a wash and assess the condition of your project as we do it.

### **#080-4 NeroQom® Microfiber Wash**

Anywhere water can't go, we'll use our range of microfiber cloths.

### **#080-5 NeroQom® Reverse Osmosis Wash**

A clean using a brush and demineralised water. This prevents streaking after the clean and gives a purer result.

### **#090 NeroQom® Water Clean**

Sometimes all it takes is a professional clean to Experience New every day.

### **#090-1 NeroQom® Hot Water Clean**

Our Squad will use variable heat and pressure technology to get even more out of water to clean your surfaces.

### **#090-2 NeroQom® Jet Water Clean**

Variable pressure washing with water can be the most basic way to clean your surfaces, depending on our ADaPT review.
